

SpacePole Self-Checkout Kiosk™

Hardware agnostic, Modular, Configurable, Customisable

Cost effective, flexible and accessible

A cost-effective self-checkout platform designed to accommodate the latest and future technologies driving customer operated point of sale. The SCO Kiosk focusses on providing accessibility for all, with the option for display height adjustment and payment reach, along with audio and navigation devices to provide the best possible customer experience, for everyone.

Compatibility

The self-checkout kiosk supports 15" to 24" size screens and payment devices from over 20 different payment vendors along with a wide range of printer and scanner brands, as well as security, audio and navigation devices.

Features

- **An integrated configurable self-checkout kiosk:** Offering bagging shelves, payment, printer, scanner and security options, as well as compatibility with displays from 15 - 24"
- **Technology agnostic:** Install your preferred hardware regardless of the brand or technology involved
- **Fully modular and customisable**
- **Engineered & designed with a focus on accessibility:** Especially in respect of the mobility and reach of visually impaired or wheelchair users. Audio and navigation devices are supported. The options for height adjustment and tilt for screens and payment devices is a SpacePole standard

Benefits

- **Reflecting retail today:** Enhancing the frictionless customer journey and addressing staff shortages
- **Cost effective:** Enables re-purposing of existing POS hardware for SCO purposes
- **Flexibility:** Can be adapted to specific store layouts and the final configuration can be decided during installation. It is designed to accommodate the technologies driving the SCOs of the future with frictionless checkout incorporating RFID, cameras, and AI
- **Accessibility for all:** Everybody should have the option to use self-service checkouts

Antimicrobial powder paint coating is standard for all metal products in black (02) for effective long-term protection from germs and bacteria. Metal products are also available in white and other colours.

Self-Checkout Solutions

Top modules

- Screen tilt option (60 degrees) to cater for different heights of users for optimum viewing
- Key holes for easy screen mounting
- Internal cable management for a neat installation
- A range of mounting options for peripherals on the sides and at the top

SCO Kiosk Top Module
(SPSK100)

Centre module

- Two internal peripheral options
- Magnetic fixings for peripheral covers
- Optional secure fixing of peripherals
- Internal cable management for a neat installation
- Two mounting options for peripherals located on the sides of the centre module

SCO Kiosk Centre Module
(SPSK200)

Floorstands

- A choice of two sizes to cater for different solution set-ups
- One internal peripheral option
- Magnetic fixings for peripheral covers
- Optional secure fixing of peripheral
- Internal cable management for a neat installation
- A range of mounting options for shelves on the side of the floorstand

SCO Kiosk Floorstand
650mm
(SPSK300)

SCO Kiosk Floorstand
800mm
(SPSK301)

Kiosk sets

- Everything required to mount a specific piece of hardware
- Easy installation

Self-Checkout accessories

Shelves

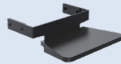

- Options for left, right and front facing installations
- Fits retail baskets and standard bag holders
- Max weight: 30 kg

SPSK510

SPSK511

SPSK512

Peripheral arms

- Allows for peripherals to be added externally
- Use same version for both left and right sided installations
- Two peripheral options on each arm (top and bottom)
- Compatible with SPSK100 and SPSK200 modules
- Requires specific hardware mount, i.e., MultiGrip plate, scanner bracket or printer plate
- SPSK506 / SPSK508: Includes DuraTilt® for optimal payment installation
- SPSK506 / SPSK507: Fits max 24" display in landscape mode
- SPSK508 / SPSK509: Fits max 24" display in portrait mode

SPSK506

SPSK507

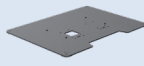

SPSK508

SPSK509

Counter baseplate

- Stable base for freestanding counter installation
- Compatible with SPSK200

SPSK513

POSlift™ for Kiosk

- Allows for 180mm of height adjustment of the screen with two options: 1st position: 20mm down and 160mm up - 2nd position: 70mm down and 110mm up
- Compatible with SPSK100 and VESA 75/75 and VESA 100/100
- Internal cable management
- Requires a flat surface on the back of the screen to operate correctly

SPSK514

More accessories

PAYlift (ACA308)

- Allows for 120mm of height adjustment of the payment device (towards the user)
- Includes tilting (-10 to 90 degrees)
- Includes rotation (90 degrees)
- Compatible with SPSK507 / SPSK509 and MH / MN

Top Pole (SPK504)

- Allows for peripherals to be added externally to the kiosk
- 500mm with internal cable management
- Compatible with SPSK100

Multigrip plates

- Allows for mounting payment devices on to the kiosk
- Designed for a specific payment device for a perfect fit
- Compatible with SPSK504 / SPSK506 / SPSK508 / ACA308

PAX301-MH

PAX301-MN
